Writing this article and the list of command that needs to go with the article was a little cumbersome. We chose 20 commands with each article and hence gave a lot of thought for which command should be included and which should be excluded from the particular post.

### What do linux admin's do on a daily basis? ; linux - reddit

The Unix/Linux admin will be doing the Chef/OpenStack, Puppet, etc. work. You still have to have an underlying understanding of the base OS in order to effectively use something like Puppet. Remember, Puppet's really only pushing out configurations and files that you request. You still have to know what to push out via Puppet.
