Since the revelations last week that the U.S. culls the phone records of millions of Americans every day and accesses the network of tech giants like Apple, Facebook and Google to trace citizens

[NSA Surveillance | American Civil Liberties Union](#)

The National Security Agency's mass surveillance has greatly expanded in the years since September 11, 2001. Disclosures have shown that, until recently, the government regularly tracked the calls of hundreds of millions of Americans. Today, it continues to spy on a vast but unknown number of Americans international calls, text messages

[The NSA is turning the internet into a total surveillance ...](#)

No longer is the government simply collecting information now so that the data is available to search, should a reasonable suspicion arise at some point in the future; the NSA is searching

[How the Government Tracks You: NSA Surveillance](#)

The U.S. Government has turned the Internet into something it was never intended to be: a system for spying on us in our most private moments. Out of control government surveillance is a dangerous

PRISM (surveillance program) - Wikipedia

PRISM is a code name for a program under which the United States National Security Agency (NSA) collects internet communications from various U.S. internet companies. [1] [2] [3] The program is also known by the SIGAD US-984XN .

A guide to the arguments against NSA surveillance ...

2) remove the argument 'the government is watching everybody' may seem logically equivalent to 'the government is watching nobody', but of course it isn't, because (just as is the intent of the NSA programs) you can go from 'watching everybody' to 'watching certain people'

National Security Agency - Wikipedia

The National Security Agency (NSA) is a national-level intelligence agency of the United States Department of Defense, under the authority of the Director of National Intelligence.

The harms of surveillance to privacy, expression and ...

The vast majority of what the NSA collects is metadata, an ambiguous term that in this case describes the data surrounding one's communications. That is to say, if the content of one's phone call is the data, the metadata could include the number called, the time of the call, and the location from which the call was made.

Privacy and Surveillance | American Civil Liberties Union

Numerous government agencies including the National Security Agency, the Federal Bureau of Investigation, the Department of Homeland Security, and state and local law enforcement agencies intrude upon the private communications of innocent citizens, amass vast databases of who we call and when, and catalog suspicious activities based on the vaguest standards. The government's
